Grand Total Circulation Transactions are from the Annual Report (Total questions 4.7 & 4.11)

- *Report the total annual circulation of all library materials of all types charged out for use outside the library, including renewals.
- * Circulation of uncataloged books, and other non-book materials should be reported in the appropriate category – Adult or Children's Other Materials. Include Young Adult Other Materials with the Adult Other Materials Circulation.
- * Include items borrowed for users of the reporting library through interlibrary loan (materials received) and charged out for home use by the reporting library's patrons.
- * Items loaned in bulk (bulk loans) by your library to schools or other institutions for circulation by the school or institution are counted as one circulation per item (the initial loan from your library to the school or institution).
- * Items sent to another autonomous library as interlibrary loan are not counted as circulation by the reporting library.
- * Items sent from one outlet of the reporting library to another, *i.e.*, from main library to a branch, are not counted as circulation.
- * Items packaged together as a unit which are generally checked out as a unit, should be counted once for each loan of the unit (*e.g.*, two compact discs, two films, two videocassettes, a kit or a set of 25 slides).
